

SEYMORE DAILY REPUBLICAN.

VOLUME XXVII. NO 193

SEYMORE, INDIANA. SATURDAY JULY 19, 1902

PRICE TWO CENTS

Women as Well as Men Are Made Miserable by Kidney Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of **Swamp-Root** is soon realized. It is sold by druggists, in fifty-cent and one dollar sizes. You may have a sample bottle by mail free, also pamphlet telling all about it, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper.

SUMMER STORMS

Damage Reported From Many Points Due to Wind and Rain.

BIG RIVER ON RAMPAGE

Below Keokuk the Mississippi Promises to Outdo All Previous Mid-summer Efforts.

Farmers in the Lowlands Estimate Their Loss At Not Less Than Four Million Dollars.

Keokuk, Ia., July 19.—Heavy rains in central Iowa are sending a flood down upon prosperous Missouri farmers which will ruin many of them and cause losses aggregated at a conservative estimate at two and a half million dollars. There seems to be no hope for the Mississippi and the Missouri tributaries from Keokuk and Hannibal, 300 square miles, in which much corn is laid by, together with several thousands of acres of wheat in the shock. The water had touched the danger line the first of the week and had begun to recede when heavy floods started again in the Des Moines river only three feet below the tops of the great levees. The river began to raise three inches an hour at its mouth here yesterday, continuing until hope of safety was abandoned last evening. A rise of one and a half feet in a short time yesterday at Ottumwa and a further rise throughout its length below the capital city was prevented from running out freely by a rise of a foot and a half at Davenport, increasing and coming down rapidly. Yesterday afternoon the observer of the weather bureau at Keokuk, in charge of this district, sent telegraphic warning to all points south to prepare for danger. The crest is expected here Sunday. The Egyptian levee which stood the flood just receding after strenuous efforts to hold it, including the destruction of farmhouses to secure lumber for strengthening the dike, is only slightly above the water now and the coming flood in the Des Moines will top it certainly. This lets the water into hundreds of square miles, including the town of Alexandria, Mo. The inhabitants there are preparing for an overflow of the entire town to a depth of several feet. This is the town which Mark Twain, in his "Life on the Mississippi," said, "sometimes comes up to blow." The worst feature is the time of the year. The corn crop is all made and wheat is in the shock, entailing a total loss of the year's work. Crops were never finer and the yield promised is immense. Grain men say the above estimate of value is too low, and put the figures of the loss from the overflow nearer four millions between Keokuk and Hannibal. It is believed the Illinois levees will hold and the damage there is likely to be only \$20,000 to \$30,000 between Keokuk and Quincy. Heavy rains reported in southeastern Iowa indicate still higher water. Lowland farmers, river men and the weather bureau observer alike predict the greatest damage ever known from flood on the upper river.

WIDESPREAD STORMS

Many Points Affected by Midsummer Torrents.

Joliet, Ills., July 19.—Rainfall of nearly four inches has caused another flood in Joliet, overflowing streets and yards adjacent to Spring and Hickory creeks and creating alarm among hundreds of families. Several manufacturing plants have been compelled to close because of high water.

Lincoln, Neb.—A rainfall of nearly three inches yesterday caused another flood in the bottom lands in the west part of the city. There was a three-foot rise in Salt and Oak creeks, and first floors of a number of houses are under water, the occupants vacating. The water is rising slowly and more rain is threatened. All of central Nebraska received a downpour, the precipitation ranging from one-half to five inches.

Chesterville, Ont.—A cyclone of great fury passed within a mile of this town yesterday and everything in its path, about 60 rods in width was destroyed. The country presents a scene of devastation. Dwellings are overturned and dead cattle are lying at nearly every farm. Several persons were killed and a number injured. The damage will exceed \$200,000.

Denver, Col.—This city was swept by an unusually violent windstorm yesterday, followed by a drenching rain. The wind blew at the rate of 42 miles an hour from the northwest. The fall of rain was half an inch. W. P. Swallows, a prominent merchant and postmaster at Kokomo, Col., was instantly killed there by a stroke of lightning.

Plattsburgh, N. Y.—A tornado swept over Mofittsville, a small village near Dannemora in Clinton country, destroying the Chateaugay Ore and Iron company's sawmill, and other property.

SEYMORE—With Pennsylvania, to an from Indianapolis, Louisville and intermediate points; with B. & O. S. W., to an from Cincinnati and intermediate point and points east.

On Sunday's local tickets will be sold on one fare for the round trip.

Central Passenger Association Mileage Tickets will be honored by this company.

For time tables and further information apply to agents of this company, or to

H. ROSEMAN, G. P. & T. A.

Terre Haute, Indiana

water. At the mouth of the Missouri river the overflow covers an area of ten miles.

Lincoln, Ills.—This city and vicinity was visited by a cloud burst yesterday afternoon. Streets, cellars and basements in stores were flooded. Considerable damage was done by wind and electricity.

Lafayette, Ind.—A severe electrical storm passed through the eastern part of this county yesterday, doing immense damage to growing crops. Oats and corn were beaten into the ground by the downpour of rain.

THE SPIRIT OF GIVING

Miners Have It in a Very Large Degree.

Indianapolis, July 19.—The miners' convention that adjourned today has settled the great question of whether or not the entire fuel supply of the country shall be tied up in order to win the anthracite strike. Provision was made for an immense defense fund that is to be continued until the strike is ended in victory for the miners. President Mitchell and his associates are confident that the legislation of this convention will result in a great victory, not only for the miners but for organized labor. That organized labor is interested is shown by large donations that have already been received from the garment workers, the glass workers, the boot and shoe makers, and the iron molders. It is expected that these donations will be greatly increased if a time comes when outside assistance is needed. Apropos of the big assessment the miners have agreed to stand, it is worthy of remark that these men, many of whom make a bare living, are willing for the preservation of their organization to give a tenth, or half their wages if necessary and to give it cheerfully. There has been no quibbling about giving among these men, and it is because of this spirit that John Mitchell and associate officials believe they see victory ahead.

It was seen from the outset this view would prevail and that there would be no strike. This belief became a certainty when Secretary Dempsey of the Scranton district announced that the anthracite caucus had decided to endorse President

A general strike order would have meant: The immediate resignation of President Mitchell, Secretary Wilson, and several members of the national board. Abrogation of contracts in Ohio, Indiana, Illinois, Maryland, western and central Pennsylvania, Tennessee, Alabama, Missouri, Colorado, Iowa and other states. The disruption of the interstate agreement between Ohio, Illinois, Indiana and Pennsylvania, whose miners and operators annually form the basic scale for several other states. Practically a complete tie-up of the mines and the idleness of over 400,000 coal miners.

Twenty-two years of actual practice enables us to perfectly fit glasses. Our prices are the lowest and our goods the best that cash can buy. Eyes tested free. Call on E. M. YOUNG 121 South Chestnut street.

McKinley postal cards are being distributed to postmasters throughout the country. They have reached Indianapolis and are already enjoying a big sale. This is accounted for because of the novelty, just as there was a big rush for Pan-American exposition stamps a year ago. The new card is just the size of the old ones but is on lighter paper. It has an excellent likeness of the dead president with the dates 1843 and 1901—the years of his birth and death. In a way this is a monument erected to McKinley that will not be without a good effect, as it will remind the people every time a card is received of the death—and also of the life—of the former chief executive. It is understood that Indiana is getting ready to send in its contribution of something over \$10,000 to the National Memorial association for the great McKinley monument that is to be erected soon at Canton, Ohio.

The "McKinley" postal cards are being distributed to postmasters throughout the country. They have reached Indianapolis and are already enjoying a big sale. This is accounted for because of the novelty, just as there was a big rush for Pan-American exposition stamps a year ago. The new card is just the size of the old ones but is on lighter paper. It has an excellent likeness of the dead president with the dates 1843 and 1901—the years of his birth and death. In a way this is a monument erected to McKinley that will not be without a good effect, as it will remind the people every time a card is received of the death—and also of the life—of the former chief executive. It is understood that Indiana is getting ready to send in its contribution of something over \$10,000 to the National Memorial association for the great McKinley monument that is to be erected soon at Canton, Ohio.

The question of this convention, he continued, "is whether or not the bituminous men will allow us to be starved back to work."

There was a rumble of "No! No!" in response.

The statement of President Nichols that the majority of the anthracite men would stand with the bituminous men against a general strike carried an assurance that no further fear on that score need be entertained. There are over 75,000 miners in President Nichols' district. His statement was echoed by delegates from his district seated around him.

The strength of the delegates opposed to a general strike was evident right at the start, and general good humor prevailed when it became apparent that the bituminous men would continue at work. The adoption of President Mitchell's recommendations mean that a giant strike fund will be established—that the miners alone will contribute something like \$150,000 to \$200,000 a week, and probably that other labor organizations and the public will increase this amount \$50,000 a week.

A dispatch was received here today from Put-in-Bay, saying the Republican editors are having a delightful trip. They arrived at Put-in-Bay after an enjoyable ride. Walter Montgomery of Greenfield is in charge of the party, which is making its headquarters at the Hotel Victory. A number of the editors and their wives left to day for a long trip to Mackinac Island and return by the D. & C. boats. Others are scattering to Cleveland, Buffalo and Detroit and some are planning to take a short run down the St. Lawrence. So far the outing has been one of the most enjoyable the association has ever taken.

The adoption of President Mitchell's recommendations mean that a giant strike fund will be established—that the miners alone will contribute something like \$150,000 to \$200,000 a week, and probably that other labor organizations and the public will increase this amount \$50,000 a week.

City's Heavy Loss.

Guayaquil, Ecuador, July 19.—The fire which broke out here at 9 o'clock Wednesday night has been extinguished after having destroyed 90 blocks on some of the principal streets of the city. The loss on buildings and merchandise is estimated at \$5,000,000.

The burned buildings include the custom house and railway station. The city is without gas, and the only water to be had is that taken from the river Guyas.

Three Trainmen Killed.

Rhinelander, Wis., July 19.—In a head-on collision of freight trains near Embine on the Minneapolis, St. Paul & Sault Ste. Marie road yesterday, Charles Johnson and William Raymond, engineers, and J. A. Anderson, fireman, were killed and Frank Thorpe, a brakeman, was seriously injured. Sixty cars, heavily loaded, caught fire and were consumed.

St. Louis, Mo.—Only once since the flood of 1892 has the Mississippi river been so high as it is at present on the Illinois shore between St. Louis and Alton, many farms are under

TRADE REVIEW

AN OPTIMISTIC FEELING FELT ALL ALONG THE LINE.

New York, July 19.—Bradstreet's weekly review of trade today says: Weather, crop and industrial developments have been largely favorable and, coupled with the great ease of money, make for an optimistic feeling in trade and speculation. As stated some time ago and confirmed by recent developments, the future seems more and more secure, but the immediate present does not in all instances present so satisfactory an appearance. Warmer weather has continued to help retail distribution, but has not in all cases made up for the disadvantages caused by the heretofore backward season. With few exceptions summer resort business has not equaled expectations. Railway earnings are really flattering, June returns on nearly 100,000 miles of road showing an aggregate gain of 8 per cent on last year. In the matter of actual business improvement it is noted that the demand for finished products of iron and steel and lumber seems to be recovering from the temporary depression noted at the beginning of July. The shoe trade, naturally, hides and leather, heretofore backward, have begun to show a favorable side, and the strength of wool and woolen goods is also more noticeable. The dry goods trade taken as a whole is rather quiet, but increased interest is shortly to be expected. The Eastern fall jobbing trade in this line is not expected to set in quite as early as a year ago.

THE POPE IS DISPLEASED.

Rome, July 19.—The Pope is intensely displeased at the way in which the commission of cardinals has conducted the negotiations with Judge Taft in the matter of the friars in the Philippines. It is learned from an authoritative source that, besides annulling the procedure of the commission of cardinals, the pope has summarily dissolved it, expressing his view that the American demands were reasonable and signifying his readiness to treat with Judge Taft personally.

PLUCKY WOMAN'S ERROR.

Murphysboro, Ills., July 19.—Mrs. George Joubert shot and killed her husband and brother-in-law, Moses Joubert, whom she took for burglars. The Joubert family lives about five miles east of Ava. George and his brother Moses had been to that village and, returning home in an intoxicated condition, proceeded to break down the door. Mrs. Joubert thought they were robbers and fired, killing both men.

MARSHALL'S RECOMMENDATION.

Mitchell's recommendations, except that they wanted it provided that, in case the assessment is not sufficient for the anthracite men, the national board be authorized to increase it to the amount required, and that the shipment of bituminous coal to the anthracite districts be restricted in accordance with the resolution of the miners' last national convention.

President Nichols of anthracite district No. 1, said the anthracite men did not want the bituminous men to do anything to injure themselves. He stated that he was not in favor of a general strike, and would have opposed it on the floor if necessary.

Since the present anthracite strike was begun he said the anthracite men had not received any financial help from the special 10-cent levy made by the last convention, but had supported it.

The question of this convention, he continued, "is whether or not the bituminous men will allow us to be starved back to work."

There was a rumble of "No! No!" in response.

The statement of President Nichols that the majority of the anthracite men would stand with the bituminous men against a general strike carried an assurance that no further fear on that score need be entertained. There are over 75,000 miners in President Nichols' district. His statement was echoed by delegates from his district seated around him.

Kodol

Digests
what you
Eat
Dyspepsia Cure

If you have indigestion don't resort to stimulants to force your stomach beyond its strength. It is only because it is weak and tired that it fails to perform its task. A stimulant may lend false strength for a time but the very violence of the effort the abused organ will make weakens it more than ever. With the reaction following the use of the stimulant will consequently come keener suffering than before. Nor will the stomach respond so readily to the next treatment of a similar character. With each repetition conditions will be worse than before. What the stomach wants is rest. Kodol Dyspepsia Cure will furnish such a rest. It digests what you eat. All other preparations lack one or more of the natural digestants. Consequently they can't effect a complete cure. Kodol Dyspepsia Cure contains them all. It acts just as the stomach acts. While it does the stomach's work the stomach is obtaining the rest which it needs to restore it to a healthy condition. "I used to suffer so from indigestion that even a soda cracker or glass of water would cause agony," says H. L. Wharton, New Bern, N. C. "I commenced using Kodol Dyspepsia Cure and it soon cured me." Weak and sickly children thrive on it.

Cures All Stomach Troubles.

Prepared by E. C. DeWitt & Co., Chicago. The \$1. bottle contains 2½ times the 50c. size. When you need a soothing and healing application for piles, sores and skin diseases, use DeWITT'S Witch Hazel SALVE. Beware of counterfeits.

A. J. PELLENS, SEYMOUR.

About Your Eyes.

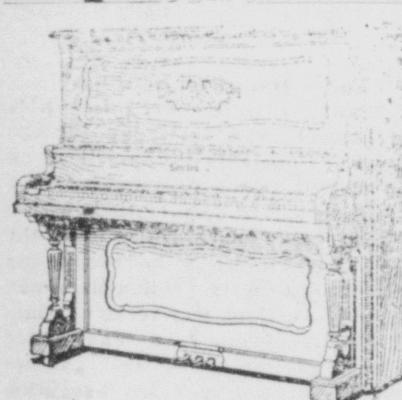

You may go on straining them. In our advertising we can warn you, but it's only in a personal way we can do you or your eyes any good. Properly adjusted glasses—our kind—will relieve minor eye troubles that, neglected, become major, and often serious ones.

Novel Plan for Raising Money.

The Ladies Sewing Society of the Baptist church, after holding its meetings for months almost exclusively in a class room of the church, are enjoying some pleasant afternoons in the homes of different members, where they meet in response to invitation. On Friday the 11 inst. the society met with Mrs. Lemen. After the business was transacted those present were very agreeably surprised by seasonal refreshments served by the hostess.

A new plan for raising money during the hot months is being inaugurated, whereby each lady who cares to enter the lists is given five cents to invest in any way which seems convenient and profitable, continuing to add profits to the capital until she is called to render an account of the use of her talents, when she will turn over the whole amount with the history of its growth to the society.

Yesterday afternoon the parsonage was opened to welcome us. After the regular business was disposed of the pastor entertained us with a short talk on the needle, its history, manufacture, etc., ending with a reference to that bib character, whose memory was so loved on account of what she had wrought with her needle in behalf of the poor.

Mrs. Martin served dainty refreshments which added greatly to the pleasure of the social hour, which was further heightened by the presence of Mrs. Ogle, whose face was so familiar among us in the early history of our society.

When we adjourned at 4:30 to meet next Friday with Mesdames Carpenter and Sawyer everyone voted it an unusually delightful session.

High Priced Fuel.

Coal starts at a high price this season, with a possibility that it will go yet higher before the winter begins. In single ton quantities anthracite is selling now at \$7.00 per ton; Pittsburgh and other eastern coal at \$3.75 and Linton at \$2.80. Local coal dealers say that Pittsburgh will go to \$4.00 by September. They attribute the high prices partly to the combination of coal mine operators and partly to the per diem fee for holding cars of other railroads here.

A Small Blaze.

About 3:30 this afternoon the fire department was called to Daniel Abel's house on West Eighth street. Some clothing caught fire in a closet but was discovered before any great damage was done, aside from some wearing apparel which was burned. The house was not damaged.

Soldiers' Reunion.

The twenty-fifth annual reunion of the 22nd Indiana volunteers will be held in Seymour August 21 and 22. The 50th, 82d, 83d, and 145th regiments are expected to hold their reunion there at the same time. The boys are looking forward to a pleasant time.

Cylinder Head Blown Out.

The south bound local was delayed this afternoon by a cylinder head of the engine blowing out when near the Sucker Rod factory at the south edge of town.

Rev. H. C. Jackson was in town this morning enroute to Cortland where he fills his monthly appointment.

George W. Graves, of Oak Grove, was among the many farmers in town wearing a happy smile on account of the showers yesterday.

Rev. A. Ogle, of Indianapolis, former pastor of the Baptist church here and now superintendent of missions for the state convention, came down this morning to spend a few days with friends here. His little grandson Robert Goodell is with him.

Mayor Mills had a young man arrested last evening for vagrancy and abusive language. He was lodged in jail last night and this morning sent away. Another member of his company was tried this morning and given a sixteen days' sentence in the county jail.

"Interurbans may not be the whole pie," says the Lafayette Journal, "but those cities of the state which are conceded to be growing most rapidly and solidly are the ones which have succeeded in getting interurbans in their midst. Anderson and Muncie are notable examples of this. Their interurban systems have proved first class for them and they are crying for more."

Summer complaint is unusually prevalent among children this season. A well developed case in the writer's family was cured last week by the timely use of Chamberlain's Colic, Cholera and Diarrhoea Remedy—one of the best patent medicines manufactured and which is always kept on hand at the home of the scribe. This is not intended as a free puff for the company, who do not advertise with us, but to benefit little sufferers who may not be within easy access of a physician. No family should be without a bottle of this medicine in the house, especially in summer-time.—Lansing, Iowa, Journal. For sale by C. W. Milhouse.

CARTER'S
LITTLE LIVER PILLS.

CURE

Sick Headache and relieves all the troubles incident to a bilious state of the system, such as

Dizziness, Nausea, Drowsiness, Distress after eating, Pain in the Side, &c.

While their most remarkable success has been shown in curing

SICK

Headache, etc., Carter's Little Liver Pills are equally valuable in Constipation, curing and preventing all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cure

HEAD

Aches they would be almost priceless to those who suffer from this distressing complaint; but fortunately their goodness does not end here, and those who once try them will find these little pills valuable in so many ways that they will not be willing to do without them. But after all sick head

ACHE

is the bane of so many lives that here is where we make our great boast. Our pills cure it while others do not.

Carter's Little Liver Pills are very small and very easy to take. One or two pills make a dose. They are strictly vegetable, and gripes or cramps, etc., have their specific action placed all who use them. In vials at 25 cents: five for \$1. Sold by druggists everywhere, or sent by mail.

GLASS FOR WINDOWS

THE METHOD AND THE MATERIALS
OF ITS MANUFACTURE.

ENOUGH ARSENIC IN THE WINDOWS OF
AN ORDINARY HOUSE TO KILL A REGIMENT
OF MEN—PROCESS OF THE TANKHOUSE
AND THE POTHOUSE.

People who have glass windows in their homes do not know that the glass contains enough arsenic to make it a deadly poison. Glassmakers say that the windows of an ordinary home contain enough of this poison to kill a regiment of men. The popular supposition that glass is made of sand is correct, but a quantity of other articles enter into its composition.

Window glass factories are divided into two departments, a tankhouse and a pothouse. The process of glassmaking in one of these departments is practically the same as in the other. In the tankhouse the glass is all melted in immense tanks which will hold thousands of tons. In the pothouse the glass is made in pots.

After the fires are lighted and tank is heated the glass mixture is shoveled in. It includes glass left over from the former season, glass refuse, sand and salt cake. Arsenic is not used in the tankhouse for the reason that the heat is so intense that the drug is volatilized and escapes into the air without entering the mixture. As one mixture melts and flows to one end of a tank fresh supplies are shoveled in at the other end.

The molten mass seethes and "works" in a manner similar to that of a mash in a distillery. From the salt cake comes a salt water that has to be separated from the mass, and the easiest way to remove it is to burn it out. This is done by throwing stove wood into the tank on top of the molten glass. The water is converted into steam, which is destroyed by the intense heat from the glass. The melted glass is then skimmed by an automatic skimmer, and it is ready for the gathering.

A gatherer thrusts a long steel blowpipe into one of the rings at the lower end of the tank. He twists and turns it until a small ball of glass gathers on the end. This ball is partially cooled, polished by being turned in a box of sand dust and then passed on to the blower, who beats it again until it becomes like taffy. The blower swings the ball over a pit that is twelve feet deep and rapidly blows it into an elongated pear shape. When a blower is through, the melted glass becomes a perfect cylinder about 5 feet long and 2 feet across. It then passes to a "snapper," who takes it to a rack and breaks the roller loose from the blowpipe.

The snapper gathers a small lump of melted glass on the end of a rod and dexterously runs a narrow ribbon of the stuff around the ends of the roller, both at the blowpipe end and the closed end. The little ribbons of melted glass cool in a few seconds, when they are removed, leaving a narrow zone of almost redhot glass around the rollers at each end. Then, taking a tool that resembles a soldering iron, the snapper rubs it for a moment on his forehead, and when the point of it is moistened with perspiration he runs the iron around the rollers at the heated spot. The glass cracks and separates as cleanly as if cut with a diamond, the blowpipe is removed, and the closed cylinder has become a roller and is then ready to go to the flattener.

The flattener works in another part of the building, where are located the flattening ovens. These ovens are heated to a temperature sufficient to soften the glass so that it may be rolled out into sheets. A series of fireclay tables placed in a circle like the spokes of a wheel revolve in the ovens, and on these tables the rollers are flattened. They are placed inside, allowed to become hot, and then a cold iron is run along the inside from end to end. The contact of the iron cuts the glass, which is then straightened out upon the table.

The flattener has a number of billets of green wood attached to long iron handles, and with these billets, which are shaped in such a manner as to do the work expected of them, he "irons" the softened sheet of glass until it is perfectly flat and smooth. The tables inside the oven revolve, the flattened sheet is carried away, and another roller is brought into position before the flattener. As the flattened sheets cool they are lifted to a place on a long traveling rack, on which they are by stages removed from the ovens, being allowed to cool as they go. This is done in order that the glass may not be shattered by too quick an exposure to the air.

When the sheets are taken from the flattening ovens, they are covered with a greasy, dirty looking coat of chemicals—soda, potash, silicates of the different salts, etc.—which must be removed, and for this purpose the rough sheets are placed in an acid bath composed of hydrochloric and sulphuric acids more or less diluted. After their immersion in this bath the sheets are taken to the cutting room, where workmen cut them into sizes and make them ready for the packers. Hardly a scrap of the glass except the rough edges is wasted. In fact, none is wasted, as all refuse goes back to be melted. After the cutters have finished their work the glass is packed in boxes and is then ready for the market.

Moved His Admiration.

Undergraduate (to chum)—That Miss Carter is the finest conversationalist I ever met. She knows all the track records for three years back.—Chicago News.

Life is only a brief lesson, and school's out 'fore we know it.—Atlanta Constitution.

Store Front Blow Out.

The wind which accompanied the rain storm yesterday was much more severe north of town. The large glass front of Frank Lemp's grocery in Woodstock was blown in and considerable damage done.

A WEAK HEART

Gives the man who has it ceaseless anxiety. Those sudden suffocating seizures which come upon him at the most unexpected times, seem to shake life to the very foundation. It would be a great relief to such sufferers to know that probably they were not suffering from organic heart trouble but from indigestion, catarrh of the stomach, or some other stomach disease involving the liver, and that they could be perfectly cured by Dr. Pierce's Golden Medical Discovery.

"I was taken with smothering spells, palpitation of the heart and a distressed feeling in my stomach," writes Mr. H. W. Kinney, of Knight, Doddridge Co., W. Va. "I consulted a doctor and he said I had organic heart trouble. He gave me some medicine but it did me no good. I then tried different kinds of patent medicines but they only helped me a little. I got so bad I could not walk any distance, was short of breath and my legs would get so weak I could not stand. Consulted another doctor and he said I had indigestion of the stomach and bowels. I doctored with him all summer and he only helped me a little. I then wrote asking you for advice and you advised me to take Dr. Pierce's Golden Medical Discovery. I got five bottles and commenced taking it. Before the first bottle was gone I felt a change. When the five bottles were gone I began to work. I had not worked any for a year before. I took in all sixteen bottles and was cured."

Dr. Pierce's Golden Medical Discovery is primarily designed to cure diseases of the stomach and other organs of digestion and nutrition. But because the strength of the heart, as the strength of every other organ, depends on the strength of the stomach, which provides it food, it frequently happens that when the weak stomach is made strong by "Golden Medical Discovery," the weak heart is made strong also.

Beyond all this "Golden Medical Discovery" contains one of the most powerful and beneficial heart tonics known. The action of this medicine is beneficial in any case of heart disease, and it usually cures the more familiar forms of what is popularly known as "heart trouble."

Accept no substitute for "Golden Medical Discovery." There is nothing "just as good" for diseases of the stomach and blood.

FREE. Dr. Pierce's Common Sense Medical Adviser is sent **FREE** on receipt of stamps to pay expense of mailing **ONLY.** Send 21 one-cent stamps for the book in paper covers, or 31 stamps for the cloth-bound volume. Address Dr. R. V. PIERCE, Buffalo, N. Y.

THOUSANDS of DOLLARS FOR HUNDREDS OF PEOPLE.

\$34,000.00 Will be distributed by THE CINCINNATI WEEKLY GAZETTE and COMMERCIAL TRIBUNE to those of its readers who most nearly estimate the total of the vote that will be cast for Secretary of State for Indiana, November 4th, 1902.

FOR FURTHER PARTICULARS WRITE THE Commercial Tribune Dividend Bureau, P. O. BOX 817, Cincinnati, Ohio.

HERE ARE THE DIVIDENDS

To the one making the nearest correct estimate of the exact total of the vote..... \$ 5,000
To the Second Nearest..... 4,000
To the Third Nearest..... 3,000
To the Fourth Nearest..... 2,000
To the Fifth Nearest..... 1,000
To the Next Five Nearest (\$5.00 Each)..... 2,500
To the Next Ten Nearest (\$10.00 Each)..... 1,000
To the Next Twenty Nearest (\$20.00 Each)..... 1,000
To the Next Fifty Nearest (\$20.00 Each)..... 1,000
To the Next One Hundred Nearest (\$16.00 Each)..... 1,000
To the Next Three Hundred Nearest (\$5.00 Each)..... 1,500
To the Next One Thousand Nearest (\$2.00 Each)..... 2,000

In all 1,490 Prizes, amounting to..... \$25,000
And if any reader estimates the Exact Total Vote an extraordinary dividend of..... 5,000

Total..... \$30,000

If any reader estimates the exact total of votes between now and July 1, 1902, such person will be entitled to the sum of \$1,500, in addition to the \$1,000 already mentioned, a total of \$1,500. If during July 1st and before August 1st, 1902, if during August and before September 1st, \$1,000. If during September and before October 1st, \$500.

The following table shows the total vote of the State of Indiana for the years 1880 to 1900, both inclusive:

1880	470,465	1890	477,543
1881	444,672	1891	548,433
1882	455,247	1892	562,682
1883	459,509	1893	630,000
1884	535,801	1894	573,391

I hereby certify that The Commercial Tribune Co. has deposited Thirty-four Thousand (\$34,000) Dollars in the ATLANTIC NATIONAL BANK, CINCINNATI, O., for the express purpose of paying the above dividends.
GEO. GUCKENBERGER, President.

\$11,500

Will be paid to the person who exactly estimates the correct total of the vote before

JULY 1st

NOW IS THE TIME TO ACT.

A STARLING REPORT.

One that Speaks Volumes, Tells of a Great Good Done, of a Certain Cure, for the Nervous, Weak and Sleepless.

Mrs. F. K. Mackey of 614 Poplar St., Seymour Ind., says: "I was a sufferer from severe nervousness, sleeplessness and dizziness. I was advised to try Dr. A. W. Chase's Nerve Pills. I got a box at A. J. Pellans drug store and now after using the medicine I am pleased to say my nervous system has been toned up, I sleep well and am relieved of those dizzy spells. I consider these pills a splendid nerve medicine."

Dr. A. W. Chase's Nerve Pills are sold at 50 cents a box at dealers or Dr. A. W. Chase's Medicine Co., Buffalo, N. Y. See that portrait and signature of A. W. Chase, M. D., are on every package.

There is one rational way to treat nasal catarrh: the medicine is applied direct to the affected membrane. The remedy is Ely's Cream Balm. It restores the inflamed tissues to a healthy state without drying all the life out of them and it gives back the lost senses of taste and smell. The sufferer who is tired of vain experiments should use Cream Balm. Druggists sell it for 50 cts. Ely Brothers, 56 Warren Street, New York, will mail it.

Serious Situation.

Baltimore, July 19.—The strike situation in this city is assuming grave aspects. Structural ironworkers and hod carriers, both of which are thoroughly organized, stand ready to join the striking carpenters whenever the word is passed. Should these craftsmen be called out, building operations which have been hampered since the beginning of the strike two weeks ago will be completely suspended.

Immigration Figures.

Washington, July 19.—A statement prepared at the immigration bureau shows the total arrivals for the last fiscal year were 646,743 immigrants and 82,055 other alien passengers, making a total of 730,798. This is an increase of 160,825 immigrants over 1901.

TERSE TELEGRAMS

A stogie trust has been formed, with \$7,500 capital.

Hamad Bin Mahomed Said, Sultan of Zanzibar, is dead.

Bunder Abbas, Per sia, has suffered severely from an earthquake.

Frank Lee Rice of Champaign, Ill., was hanged in Toronto for murder.

The southern peach yield has been large and fruits generally have done well.

Champion Jeffries is sick at his quarters at Oakland, Cal., as a result of over training.

The labor organizations in New York are taking steps to help the anthracite strikers.

Good growing weather is reported the country over and corn and cotton reports are generally more favorable.

Business failures in the United States for the week ending July 17 number 114, against 162 last week and 130 the week before.

The Sphinx is reported to be decaying, not because of the deteriorating climate of Egypt, due to irrigation of recent years.

Crop prospects continued favorable during the week and with the removal of the speculative influences there was a gradual decline in prices.

The China Development company has arranged to place \$1,000,000 in bonds, and will proceed to construct a trunk line railroad in Southern China.

PAID FOR THE PICTURES.

Where the Money Came From That Settled the Bill.

"For diplomatic kindness I will never forget one man," remarked a well known sportsman of Pittsburgh. "He certainly knew how to do the right thing, and although it didn't cost him anything it helped a crowd of us out of an embarrassing predicament for the time. A party of young fellows, myself in the number, were camping years ago on the Beaver river, not far from Kock point. None of us had much money after getting our outfit and the farmers got about all that was left in exchange for milk and butter. One day three of us decided to go up to the picnic grounds, and just as luck would have it, we met a crowd of girls from our own town. It was a happy meeting all around until some fool girl suggested that we all get our pictures taken. To save our lives, the three of us boys couldn't have raised a total of 16 cents, but like true soldiers of fortune we decided to go ahead and trust to luck to meet the obligation.

"The artist eyed us rather queerly and our hearts began to fall. After a whispered consultation I was delegated to take him aside and negotiate with him. I was authorized to stake everything we had, even down to our good names. I stated the case briefly but eloquently, and I must have made a good impression, for, when I had finished, he said it would be all right. The strangest part of it all to me was when he handed me a dollar bill.

"I know how it is myself," he said. "You want to put up a bluff before these girls. Just hand me the dollar for the pictures when I'm through."

"That was what pleased me, and I dashed that bill before the girls with the air of a maggot. It was just a month later that I learned from a brother of one of the girls that they had noticed our worried looks and had forestalled us by paying the photographer the dollar I flourished so proudly."—Pittsburgh News.

A Way Out of It.

It was a man who opened the door when the book agent rang the bell, but a woman stood not far behind him, and subsequent developments indicated there had been a few warm words.

"I would like to talk to the lady of the house for a few minutes," said the book agent.

"Oh, that is utterly impossible," replied the man pleasantly. "You may see her if you wish, but you can't talk to her for a few minutes—that is, in succession—unless—as a happy thought seemed to strike him—"you both talk at once."—Chicago News.

Skull Bokers.

A remarkable application of Biblical precept is still to be found among the Serbs, who do not all live in Serbia, but are also scattered over Turkey, Monte negro, Bosnia and southern Hungary.

They are very quarrelsome, and the vendetta flourishes among them. It follows that bullet holes in the skull are by no means uncommon.

Now, according to the unwritten law a man who has made a hole in another's head must submit to having his own head perforated in like manner, unless he prefers to pay about \$100 damages, which is seldom the case. So there has arisen among the Serbs a peculiar profession, that of the "medigs," or trepanners, who for a moderate fee will bore a hole in your skull and guarantee the wound to heal in two weeks.

Somnambulism.

Farmer Jones was awakened by a suspicious noise in his barnyard, and, going out with a club and lantern, in an angle between the chicken coop and barn he saw a colored neighbor standing bolt upright, with his eyes closed. After receiving a sharp blow on his head the intruder opened his eyes.

"Where is it?" he asked. "Is that you, Farmer Jones? I suspect I've been walking in my sleep again. I often does walk in my sleep and just stand round and don't know where I am."—New York Herald.

Diogenes and Dog.

Diogenes died from the bite of a dog and his last request to the neighbors was that they throw his body into the alley for the dogs to eat, but they refused to do so and gave him noble funeral and erected a monument in his honor, upon which was carved the figure of a dog, the symbol of his life.—Chicago Record-Herald.

Discouraging.

Jester—Poor old Skinfink has his troubles!

Jimson—What! Why, he's making barrels and barrels of money.

Jester—I know, but the price of barrels goes up.—Boston Post.
